CHANGE OF OWNERS OF THE MACNAMARA

According to official announcement made yesterday on the San Francisco stock exchange, absolute control of the MacNamara Mining and Milling company has been acquired by the interests which have made the stock of this company an outstanding feature of trading on the mining shares board for the past three months. The acquisition of stock, it was stated, was continued to a point where the sales exceeded to a considerable extent the outstanding issue, thereby creating a considerable short interest.

A statement will be issued soon showing the actual financial condition of the company. It is in preparation by certified accountants and will show net earnings of about \$10,000 for September.

Joseph L. Josephs, president of the company, when told of the foregoing statement said there was no rehabilitation of the company but explained that some new interests had bought into the property without changing the personnel of the control.

UNITED STATES ASSAYERS MEET AT CARSON CITY

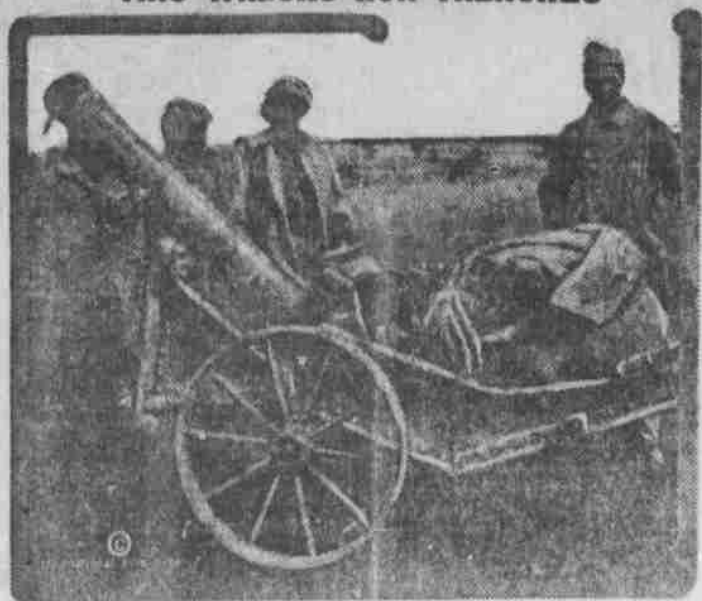

WASHINGTON, Sept. 28.—Director of the Mint Raymond Baker has called a conference at Carson City for October 15 of all U. S. assayers in western states. Baker will make an inspection of the western mints after the Carson City conference.

The meeting of the assayers will be a matter of considerable importance, as the question of gold production is a paramount issue throughout the world. During the war the production of gold has steadily declined.

NEVADAN APPOINTED

(By Associated Press) WASHINGTON, Sept. 27.—Appointment of Henry Thurtell of Nevada as chief examiner of the interstate commerce commission and of George M. Croeland of South Carolina as chief of the bureau of tariffs was announced today by the commission.

THIS WRECKS HUN TRENCHES

This 155-millimeter trench cannon is the grandfather of all the small trench artillery. The Germans at first had much superior small guns for trench smashing at short range, and life in British lines in Flanders was made miserable by the Hun "minenwerfers." Then the Stokes trench mortar was taken to France to make things hot for Heinle. The French gun shown above is Fritz's worst hate. Your share in the Fourth Liberty Loan will help turn the tables on the Boche.

ROY RAY WRITES WITH DIFFICULTY

Corporal Roy Ray, Company "F," 318 engineers, writes his mother that he is on the keen jump with little time to spare for writing. His letter, in part, reads: "We are no longer in the little town of Glueves but have traveled some. Further, we don't stay in barracks any more but are billeted in a French village. If all this had happened back home I think I would have died. However, I have learned to sleep on a cement floor and feel comfortable. Some of the boys were more fortunate and have straw under them. I'd never say they stole it from the cow stalls. We have been having some hard drilling but, I expect, it's what we need. Further, we have had other experiences that I'd like to tell but cannot. (This letter must positively wait until another time; I can't hardly see a thing). Again we are blessed with mail and I, as usual, got a letter from my keen little mother. Also heard from dear old Bill Wise; said he had taken his wife to Honolulu to be operated on for tonsillitis and had just returned. I find that tonight is another night and, if I am not bothered with the elements, I will try at last to finish this and get it off. The friend of mine from Vancouver and I have learned to speak a little French, until we have reached a state where we can make our desires known. An old lady let us eat in her kitchen away from the files and dust and sun, and with that she washes our mess kits as well as our clothes. We also buy four quarts of milk a day, some jam and fruit and fromage, which is nothing else than cheese. Altogether we are spending about two francs more than we are making, but the main thing is that we are getting fat while it lasts. "The days here are very hot, and at night with all equipment that we have to carry around one would wonder how we stand it. However, we do and though we get terribly tired during the day, in the cool of the evening we become quite refreshed and manage another day. Since I started this last aspen the weather has become very inclement and outside it is thundering and raining and, were it not so wet, I could nearly finish by the light of the lightning. However, I am writing by the candlelight and standing all sorts of abuse from my bunkies. It's much harder to write now than it used to be, but, if you don't hear more often, don't worry."

SAVING NUT SHELLS TO SAVE OUR BOYS

(By Associated Press) SAN FRANCISCO, Sept. 27.—Plans are in the making for the organization of men and women, boys and girls for the purpose of saving all fruit pits and nut shells for government use. Places will be designated where housewives who preserve peaches, plums, apricots and other fruits containing pits, instead of throwing away the pits can send them in.

Pits and shells are valuable as furnishing material which is a protective against German poison gas. The request that they be collected comes from Brigadier General Hugh S. Johnson, director of purchase and supplies for the war department, and the Red Cross organizations have been requested to take charge of the systematic gathering of these two items. All families are requested to turn in their shells and pits to their nearest Red Cross chapter.

Irrigation has been practiced in Spain for more than a century. Argentina is, today, the most important beef-producing country in the world. It produces over half of the beef supply.

NYE COUNTY RATIO ON LIBERTY LOAN

The Nevada quota of \$5,033,850 for the fourth Liberty loan has been apportioned until Nye county has been assigned the raising of \$400,000. This represents less than the ratio of the third loan owing to the representations of the Nye County Council of Defense which asked for a revision of the former percentage. The quota of the third loan was \$286,000 and Nye county showed its loyalty by raising \$445,000.

BRIBERY CHARGES IN FEDERAL COURT

Direct testimony that James A. Wood, former deputy food administrator of Nevada, solicited and received a bribe of \$100, and asked for a monthly payment of \$500 from the Elko and South Fork flour mills at Elko, Nev., was given before a jury in the federal court by W. W. Percival, says the San Francisco Chronicle.

Percival, manager of the mills, declared the money was paid Wood in the Ramona hotel here, May 7, 1918, according to Percival, in return for the money and monthly bribe of \$500 to permit the mills to increase the price of flour to cover the monthly payment; to recommend the reduction of a fine of \$1000 imposed upon the mills for an infraction of regulations, and to make arrangements whereby merchants of Nevada would discriminate against all flour, except the product of the two mills managed by Percival. Percival's story was unshaken on cross-examination. Wood, who asserts he was endeavoring to trap Percival, is being prosecuted by Special War Attorney Casper Ornburn. Don S. Rathburn, former head of the department of justice here, will be a witness for the government. Special Agent Walter Treadwell, assisted by Rathburn, is said to have trapped Wood in the Ramona hotel, with the aid of a photograph. Percival and other officials of the flour mill assisted the government agents in obtaining evidence.

REPORTS OF STARVING SPREAD IN AUSTRIA

(By Associated Press) ZURICH, Sept. 27.—The Vienna Socialist organ Arbeiter Zeitung says: "The pan-German shriekers and their spiritual allies in Austria-Hungary are continually declaring that the starvation of Great Britain is a mathematical certainty and publishing mendacious despatches about the injurious effects of unrestricted submarine warfare."

"The London correspondent of the Amsterdam Handelsblad, however, says that the food situation in Great Britain grows constantly better and gives no occasion for anxiety. This shows that there is no chance of starving Great Britain any more than there is any prospect of her military overthrow."

"There remains only the hope of an understanding. Therefore the more unwarranted is every political step which renders this more difficult whether taken by the central powers or by their allies."

Opals have a tendency to work loose from their settings more than any other precious stone.

The most common letter is E. In 1000 letters E occurs 137 times in English, 184 times in French, 145 times in Spanish and 178 times in German.

INFLUENZA STOPS SENDING RECRUITS

The questionnaires which were sent out in nine daily divisions have begun to return to the county exemption board which will soon take the responses under advisement with the object of classifying the registrants. That work will not begin for several days. However, advice has been received that until further notice there will be no calls for men to enter the service or until such time as the epidemic of influenza is under control. This postpones the call for men to go to Camp Lewis on September 7th and also suspends the order for two limited service men for duty at Camp Logan, Colo.

OLD TIME TO RETURN END OF THREE WEEKS

Last March, when the clocks of the nation were turned back an hour, it was an experiment which people accepted because it was war-time conservation, although many failed to understand its importance in the matter of saving artificial light, and by that means the fuel and labor that go into the production of light. Few now recall the date of the change and fewer still the date of change back to the old time during the winter months.

The change back will occur the third Sunday in October, which falls on the 20th of the month. There has never been published a statement, if the data exists for one, showing the amount of saving effected by the hour's daylight saving.

WHITE RIBBONS GUIDE WOUNDED

(By Associated Press) PARIS, Sept. 27.—The American Red Cross has just taken steps to overcome one of the greatest hardships suffered by the American soldiers during a battle. Many men in the course of an action receive slight wounds which render them incapable of continuing in the ranks and they are at once sent to the nearest dressing station on foot if they are able to walk.

Everything on a modern battlefield is generally turned into an unrecognizable heap by the terrific artillery fire which precedes an assault and the wounded, whose nervous systems are rapidly sapped by pain and loss of blood, have difficulty in finding their way back over the ground they have stormed.

To alleviate the suffering of the wounded boys, the American Red Cross is furnishing thousands of small signs made of white cloth with a large red cross at one end and a red arrow at the other to indicate the direction which the wounded men must take. These signs are to be fixed to trees, bushes, posts or other objects in the wake of advancing troops, and even laid on the ground when no other method is at hand.

Army officers have told the Red Cross officials that these markers will probably save the lives of a large number of men and avoid grave consequences to many, as the seriousness of any wound depends greatly on the prompt treatment it receives.

6 Months Front Line Duty Gives Gold Sleeve Bar

Badge of Honorable Service at Home Is Fourth Liberty Loan Button

General Orders, No. 53, recently issued by the War Department in Washington, provide: "A gold chevron . . . to be worn on the lower half of the left sleeve . . . by each officer, field clerk and enlisted man who has served six months in a theatre of operations during the present war . . ."

A war service badge—bespeaking active participation in the conflict abroad. What pride the wearer will feel in that little piece of adornment, of standard material and design!

To the onlookers, what honors will it suggest; what endurance and valor! War service badges are not to be confined to the Army and Navy alone. The great numbers of those who stay at home may have a badge of service and distinction. With the issuing of the Fourth Liberty Loan button there becomes available for every loyal American a mark of war service, a badge of honor for war work well done.

Social investigators have found that there are fewer suicides proportionately among miners than among any other class of workers.

Yellow pine and oak are the best woods to resist the action of steam with the least amount of warping.

PERSONAL

WALTER J. DRYSDALE and mother have taken the Frisch house on Central street where they have gone to housekeeping.

MR. and MRS. CHARLES HUBER are at home in the Martin cottage on Prospect street.

H. B. LEACH, bookkeeper for the Tonopah Auto Supply company, accompanied by his wife and little daughter, returned home yesterday after making a month's tour of California and western Nevada.

ELMER TANZEY, who has been looking after the insurance interests of the Southern Nevada Abstract company, will leave in the morning for Los Angeles to make his future home.

AUSTRIAN PIRATES STEAL EVERYTHING

ROME, Sept. 27.—Professor Calzavara, arriving from Friuli, asserts: "San Sisto di Lavenza, where I lived, has been given over to pillage by the Austrian soldiers, who have spared nothing. Whatever has not been stolen has been destroyed."

"At Udine in the first days of the occupation the cruelest barbarities were committed. Everything atrocious and wild was done in the sad supremacy of the Germans and the Germans from Austria. Udine is reduced to 12,000 inhabitants. All industries have stopped, the stores closed and the street cars have suspended, while all the wheels have been shipped to Austria."

"About sixty of the better palaces have been destroyed by fire, and others have been mined to be blown up whenever the Austrians are obliged to retreat."

"The food situation is desperate in the Venetian provinces people literally starve to death. The Friulians have been robbed of everything. The wheat has been cut and shipped to Austria. Those robbed were paid in bills of the notorious Bank of Deposits and Loans, which have no value whatever."

"All the wood floors have been taken out of the houses in Udine. To the protests of the inhabitants the Austrians answered simply and invariably: 'We have done this in Rumania, why should we not do the same thing in Italy?'"

"The museums have been sacked and all the curiosities sent to Germany and Austria. When any of the inhabitants are suspected they are tried and threatened with death."

CHILE SEIZES SHIPS

(By Associated Press) SANTIAGO, Sept. 27.—Chile has ordered armed naval forces to occupy all interned German ships.

JOHN BARRIER ANNOUNCES HIS CANDIDACY ON THE DEMOCRATIC TICKET FOR Sheriff of Nye County

WOOD! WOOD! WOOD! Now is the time to put in your winter supply of wood. For the next ten days I will sell wood in truck load lots consisting of four cords cut in four-foot lengths (for immediate or future delivery) delivered at your door at \$15 per cord. Liberty Bonds will be taken at par in payment of truck-load lots.

AMUSEMENTS

DOUGLAS FAIRBANKS TONIGHT

The star of "Mr. Fixit" is Douglas Fairbanks, the smiling and athletic screen favorite, who is undeniably the most popular film star now before the public.

In this interesting subject, Mr. Fairbanks will be seen as a young society man, whose hobby is to be happy and to bring happiness to others. The scenes of "Mr. Fixit" transpire in the slums of New York as well as in the home of a wealthy New York family, which is divided by the bickerings and petty jealousies of its members. In adjusting the heart affairs of two young women, both of whom are engaged contrary to their wishes. Some very amusing complications arise, of which Fairbanks makes the most, and although he appears in a dress suit throughout the production, the opportunities afforded him for the display of his wonderful stunts are plentiful. It is safe to say that his work in this picture will greatly enhance his reputation for versatility and genial good humor, although his name is sufficient to fill any theater that requires high class entertainment. In addition to this excellent feature, the latest edition of Pathe News will be shown. Remember the show starts promptly at 7 o'clock.

Tomorrow, Viola Dana, in "Riders of the Night," a two-reel Mack Sennett comedy, and the first appearance of a Tonopah film star.

GIRL SCOUTS OPEN TO RECEIVE RECRUITS

The girl scout organization has opened its ranks and is now receiving new members. Many little girls between the ages of ten and twelve have already made applications for membership. The girl scouts met last evening and the drill movements were explained to the prospective scouts who are busily preparing for their tenderfoot examination. The organization invites all girls past the age of ten to join the ranks. Mr. Roy Cross, leader of the girl scouts, will receive applications for membership. N. S. '21.

STORK VISITS THE CARPER HOME ON MIZPAH HILL

The home of Mr. and Mrs. A. F. Carper on Mizpah Hill was brightened by the arrival of a daughter Wednesday evening who falls heir to the name of Jane Ann. Mr. and Mrs. Carper came here from Denver and the father is connected with the engineering staff of the Tonopah Mining company.

Dip your eyeglasses in cold water, dry with a clean cloth and you will find a wonderful change in your glasses. Should your eye glasses need adjusting, see me, no charge. Emil Merman, expert watchmaker. adv325t
